IMPRINT THE FUTURE

Unifying the industrial screen printing industry

India has been witnessing an immense growth potential for the industrial printing segment backed by a growing demand for 'Made in India' products, aided by the government outlook and further boosted by global supply chain challenges faced in the pandemic era.

Screen Print India - Industrial has been conceptualised to present a focussed and unified platform for the industrial printing segment; bringing the latest advancements and future-building conversations for the growth of the sector.

The Future of Functional & Industrial Printing'

*As per a report by Smithers
